Subpart A—General Provisions

§ 1468.1 Purpose.

(a) Through the Conservation Farm Option (CFO), the Commodity Credit Corporation (CCC) provides financial assistance to eligible farmers and ranchers to address soil, water, and related natural resource concerns, water quality protection or improvement; wetland restoration and protection; wildlife habitat development and protection; and other similar conservation purposes on their lands in an environmentally beneficial and cost-effective manner. The Natural Resources Conservation Service (NRCS) may provide technical assistance, upon request by the producer or landowner.

(b) The CCC provides a single contract and annual payments for implementation of innovative and environmentally-sound methods for addressing natural resource concerns for producers of wheat, feed grains, cotton, and rice, resulting in consolidation of payments that would have been available under the Conservation Reserve Program (CRP), the Wetlands Reserve Program cost-share agreements (WRP), and the Environmental Quality Incentives Program (EQIP). CFO participation is determined through two step process: first, the Chief, with FSA concurrence, selects CFO pilot project areas based on proposals submitted by the public; then CCC accepts applications from eligible producers or owners within the selected pilot project area.

§ 1468.2 Administration.

(a) CFO is carried out using Commodity Credit Corporation funds and will be administered on behalf of CCC by the Natural Resources Conservation Service (NRCS) and the Farm Service Agency (FSA) as set forth below.

(b) NRCS will:

- (1) Provide overall program management and implementation for CFO;
- (2) Establish policies, procedures, priorities, and guidance for program implementation, including determination of pilot project areas;
